

Reimagining Your Math Adoption: Selecting New Materials for a Generation of Learners

Opportunity:

[Research](#) shows that high-quality instructional materials are a key lever for [educational equity and success](#) for each and every learner. In the context of California's current [Revision of the Mathematics Framework](#) and upcoming Mathematics Instructional Materials Adoption, [CalCurriculum](#) offers a year-long, mathematics materials adoption professional learning experience designed for California districts and Charter Management Organizations (CMOs).

We invite all California LEAs to apply to this FREE, grant-funded opportunity.

Workshop Series Outcomes:

In these workshops your district/CMO team will:

- Develop a plan for the adoption of standards-aligned, high-quality math materials, including:
 - a math instructional vision
 - a definition of quality instructional materials
 - a change management strategy for engagement/buy-in
- Articulate the role of materials adoption and implementation as an adaptive change process centered on equitable student outcomes.

Workshop Series Overview:

6 synchronous sessions (4 in-person and 2 virtual) from October 2021 to March 2022. Asynchronous work will need to be completed between sessions, including onboarding for the first session.

- Tuesday-Wednesday, October 19-20 (**In-person**; Southern California location)
- Tuesday, November 16 (**In-person**; Southern California location)
- Tuesday, December 14 (**Virtual**; via Zoom)
- Tuesday, February 8, 2022 (**Virtual**; via Zoom)
- Tuesday, March 1, 2022 (**In-person**; Southern California location)

These workshops offer educators the opportunity to learn best practices in choosing and implementing the highest-quality mathematics materials, which includes a variety of stakeholders at the decision table. With that in mind, teams of 4-8 will be required for participation. You can learn more about the requirements [here](#).

[Apply Now!](#)

Application Deadline: August 31st, 2021

Acceptance Notification: September 15th, 2021

About Us:

CalCurriculum's goal is to help districts adopt and implement quality instructional materials by providing independent reviews, actionable resources, and guidance tailored to the California context. CalCurriculum is a partnership between [Pivot Learning](#), a California technical assistance provider, and [EdReports](#), a national non-profit.
