**Comprehensive Support to Give Educators Their Best Chance for Success**

Together, we provide:

- Equity-driven district coaching and project management
- School-level coaching and trainings for educators to deepen curriculum and pedagogy knowledge
- Virtual and in-person intensives for teachers and leaders
- High-quality services that can be customized to your district’s needs to ensure sustainability

Professional Services

From day one, leaders at Pivot Learning and UnboundEd will work with your team to design a program that works for you.

District Project Management: Plan and Execute Your Vision for Instructional Excellence

Pivot Learning project managers work with your district team to develop detailed plans for professional learning, evaluation, and communications and then work with your team to implement them through weekly or biweekly meetings.

Cycles of Inquiry: Ensure Teachers Deliver Excellence to Every Student, Every Day

Integrity walkthroughs engage school staff to examine how curriculum materials and pedagogy are being implemented.

Instructional rounds build participants’ knowledge of materials, instruction, and how to use data to inform equitable practice.

Program Planning engages district and school-based staff in data review, scope engagement for the school year, and selects and addresses priority topics.

Math Pedagogy Trainings*

Offer Teachers Instrumental Content Knowledge in Math

Grade Level Content Trainings broaden participants’ understanding of key mathematical topics in grade bands (e.g., middle school’s “Entering Algebra”).

Building Fluency and Number Sense is focused on learning how to apply and adapt activities that lead to fluency, number sense, and building mathematical understanding—emphasizing techniques to support English learners and students struggling in math.

Teaching Problem Solving Through Mathematical Modeling and Other Math Applications focuses on the various uses for problem solving and the types of modeling required in state standards.

ELA Pedagogy Trainings*

Offer Teachers Deeper Content Learning

Reading Fundamentals covers phonemic awareness, phonics, fluency, vocabulary, and comprehension in an abbreviated format (3 Sessions).

Effective and Efficient English Language Development Practices focuses on effective instruction for English learners (ELs) and exploration of the EL components in literacy programs. (2 Sessions)

Vocabulary Workshop focuses on best practices to develop vocabulary knowledge aligned to the Language Standards in elementary students.

Language Conventions and Writing Fundamentals focuses on teaching language conventions and writing to both primary- and upper-grade elementary students, from basic sentence construction through longer compositions. (2 Sessions)
ELA Pedagogy Trainings*: Offer Teachers Deeper Content Learning

**Reading Fundamentals** covers phonemic awareness, phonics, fluency, vocabulary, and comprehension in an abbreviated format (3 Sessions).

UnboundEd

Trainings and Professional Learning for School and District Leaders: Inspire Equity-Focused Leadership

Virtual Summit and Standards Institute are intensive, interactive events for teachers, coaches, and leaders that emphasizes instructional planning to ensure students have equitable access to grade-level instruction.

System Leader Academy (SLA) supports system leaders to intentionally build representative stakeholder teams to deepen their understanding of equitable policies, practices, and procedures and how to identify and realign inequitable systems to support practices to improve conditions of learning for faculty, staff, and students.

Equity Influencer Residency (EIR) focuses on identifying equitable or inequitable instructional practices in classrooms and building content knowledge, standards-based instructional expertise, and fluency in the coaching and professional development practices to support content-based, equitable instruction.

UnboundEd Planning Process (UPP) guides ELA and math teachers through a daily process of internalizing and adapting lessons from a high-quality, aligned curriculum through a cycle of modeling, hands-on practice, and feedback.
