

Curriculum Implementation Professional Services

Comprehensive Support to Give Educators Their Best Chance for Success

Together, we provide:

- Equity-driven district coaching and project management
- School-level coaching and trainings for educators to deepen curriculum and pedagogy knowledge
- Management support for the effective use of Curriculum Associates' materials

Who? Grades K-8

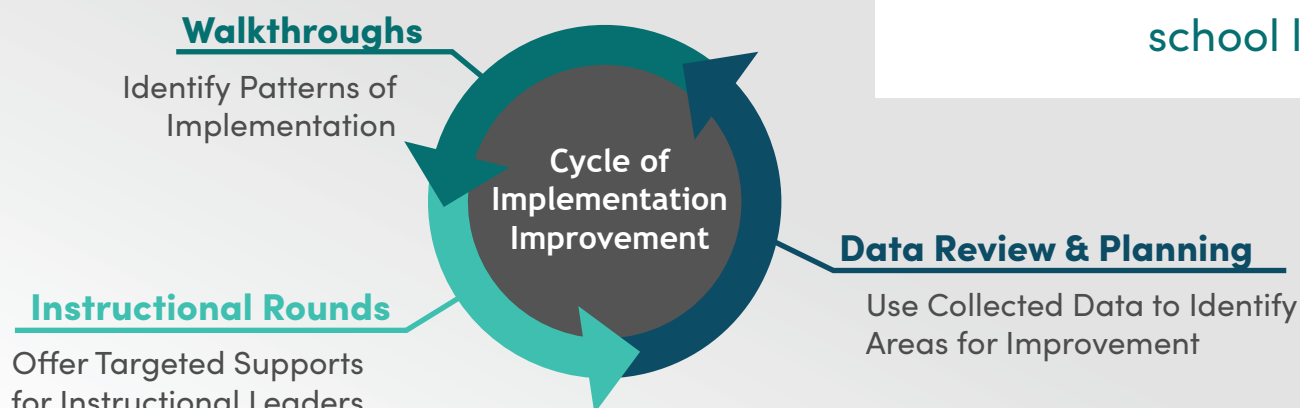

What? ELA & Math

Why? Equitable Student Outcomes

*Pivot Learning refers to both Pivot Learning and our subsidiary, CORE

Our Curriculum Implementation Services At-A-Glance

Our services are delivered in cycles of improvement so that implementation gets even better over time – both at the district and school level.

	Planning and Review				Oct			Feb			May		
	Instructional Rounds				Nov-Dec			Feb-Mar					
	Pedagogy Training	Fall Sessions						Spring Sessions					
	Materials Use Courses	Sep						Apr					

Professional Services

From day one, leaders at Pivot Learning and Curriculum Associates will work with your team to design a program that works for you.

District Project Management: **Plan and Execute Your Vision for** **Instructional Excellence**

Pivot Learning project managers work with your district team to develop detailed plans for professional learning, evaluation, and communications and then to implement them through weekly or biweekly meetings.

Cycles of Inquiry: Ensure Teachers **Deliver Excellence to Every Student,** **Every Day**

Integrity walkthroughs engage school staff to examine how curriculum materials and pedagogy are being implemented.

Instructional rounds build participants' knowledge of materials, instruction, and how to use data to inform equitable practice.

Program Planning engages district and school-based staff in data review, scope engagement for the school year, and selects and addresses priority topics.

Professional Services

ELA Pedagogy Trainings*: Offer Teachers Deeper Content Learning

Reading Fundamentals covers phonemic awareness, phonics, fluency, vocabulary, and comprehension in an abbreviated format (3 Sessions).

Effective and Efficient English Language Development Practices focuses on effective instruction for English learners (ELs) and exploration of the EL components in literacy programs. (2 Sessions)

Vocabulary Workshop focuses on best practices to develop vocabulary knowledge aligned to the Language Standards in elementary students.

Language Conventions and Writing Fundamentals focuses on teaching language conventions and writing to both primary- and upper-grade elementary students, from basic sentence construction through longer compositions. (2 Sessions)

* More offerings at corelearn.com

Math Pedagogy Trainings*: Offer Teachers Instrumental Content Knowledge in Math

Grade Level Content Trainings broaden participants' understanding of key mathematical topics in grade bands (e.g, middle school's "Entering Algebra").

Building Fluency and Number Sense is focused on learning how to apply and adapt activities that lead to fluency, number sense, and building mathematical understanding – emphasizing techniques to support English learners and students struggling in math.

Teaching Problem Solving Through Mathematical Modeling and Other Math Applications focuses on the various uses for problem solving and the types of modeling required in state standards.

Curriculum Associates®

Curriculum Associates Offerings: Go Deep on Understanding the Materials

i-Ready Classroom Mathematics

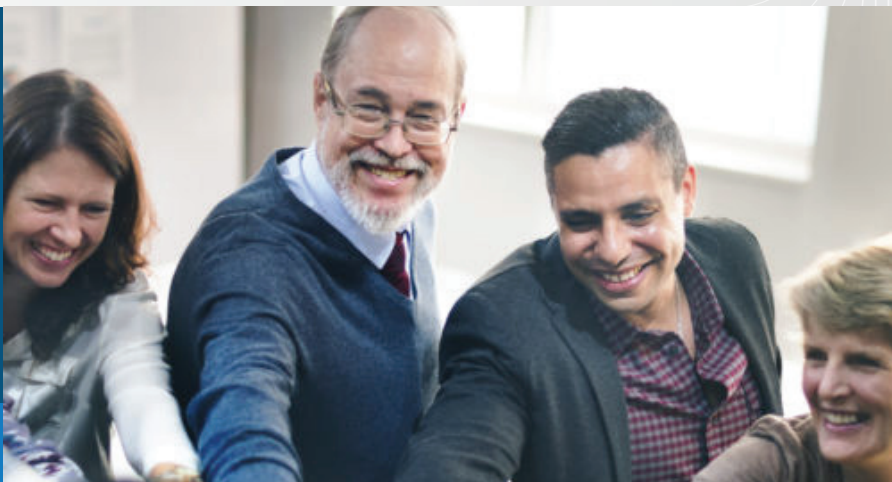

Materials Implementation Support helps to ensure that i-Ready Classroom Mathematics and i-Ready are launched successfully, and provides ongoing support throughout the lifespan of implementation support for planning, data analysis and review, and ongoing account management.

Materials Use Courses and Tailored Support provided over the course of 1-4 days during the year. These are provided to educators and are designed to track the evolution of an i-Ready Classroom Mathematics implementation and to address specific implementation needs. We also provide consultative support to site leaders to build their capacity to lead their implementation.

Self-Service Implementation Support is available to educators to allow i-Ready Classroom Mathematics professional learning to continue as supplements to synchronous learning. These include:

- Digital courses on math practices (discourse, fluency, etc.)
- Collaborative learning agendas for professional learning communities
- Topic-based kits and tools on Ready Classroom Central (e.g., pacing tutorials with unit-planning templates)

Curriculum Associates Offerings: Go Deep on Understanding the Materials

i-Ready Learning

Magnetic Reading™

Magnetic Reading 3–5

Materials Implementation Support helps educators plan, pace, scaffold, and differentiate Magnetic Reading instruction. These resources are available to support educators throughout their Magnetic Reading implementation.

Materials Use Courses and Tailored Support to focus on developing educators' capacity to engage all Grades 3–5 students in grade-level reading. These offerings provide an opportunity for in-depth exploration of key program resources and address topics such as Using i-Ready Data to Inform Magnetic Reading Instruction and Scaffolding Comprehension with Grade-Level Texts.

Self-Service Implementation Support, such as collaborative learning agendas for professional learning communities, can be used to build on learning from facilitated professional development sessions.

Support and Service to Help You Achieve Real Learning Growth

At Curriculum Associates, partnership is a mindset. Your success matters to us, which is why more than 40 percent of the Curriculum Associates team is devoted to roles directly serving educators. i-Ready Partners was born from our core value that the quality of our services is as important as the quality of our products.

i-Ready Partners offers:

- A dedicated Account team that works alongside you to support you in achieving your goals
- Professional Development (PD) delivered by educators who assist you in transforming classroom practices
- Real-time achievement data after every assessment
- Proactive technical support that anticipates and heads off any issues before they start
