

HQIM + Implementation = Impact

Conditions for Success in High Quality Materials Implementation

October 13, 2021

©2021 Pivot Learning | pivotlearning.org

- The webinar will be one hour, alternating presentation and discussion
- If you have a question for the presenters, please use the chat to message our hosts. Your questions will be anonymous.
- A recording will be made available by the end of the week. Find the recording and additional resources at <u>pivotlearning.org/resources</u>.

Panelists

Jamahr McDaniel Director, Adoption and Implementation Pivot Learning

Jignasha Pandya Director, Adoption and Implementation Pivot Learning

Sean True Senior Director of Educational Services Monterey Peninsula Unified School District

Stephanie Lawkins Vice President, Educator Success Curriculum Associates

Today's Conversation

Why HQIM	Conditions for Success	Learning from the field	Q&A
Understand why high quality instructional materials (HQIM) implementation matters	Learn about and discuss our conditions for successful HQIM implementation	 Hear learnings from: a school district, an HQIM and instruction support provider, and a curriculum publisher 	Make connections and receive resources to effectively implement HQIM

Overview of Pivot Learning

©2021 Pivot Learning | pivotlearning.org

Pivot works with educators to ensure academic rigor for all students through support for great teaching, proactive intervention, and aligned district systems.

We support visionary education leaders to...

Use Great Curriculum

Choose and use high-quality instructional materials so all students are taught rigorous academic content.

Support Every Learner

Improve systems to provide proactive support for students based on their learning and social-emotional needs.

3 Lead on the Issues

Learn from excellent work in districts and explore ways to improve student outcomes and achieve educational justice.

With great curricula, we can raise the bar for all students

We help educators at the district, school, and classroom levels to choose and use high-quality instructional materials.

- Learning Acceleration
- Choosing Instructional Materials
- Managing Implementation
- Training Educators

Why High Quality Materials Implementation Matters

©2021 Pivot Learning | pivotlearning.org

Students of color and students in high-poverty schools have inequitable access to grade level materials

of classrooms composed mostly of students of color have no grade-level assignments

Recent research: Curriculum is a powerful tool to close achievement gaps

- Math textbook choice shows significant effects on test scores
- Access to rigorous

 coursework increases
 student achievement for
 Black and Latinx students

Curriculum as part of an *integrated delivery model* to drive change in teacher
 behavior leads to an even greater impact on student outcomes

Koedel et al. "Mathematics Curricula Effect on Student Achievement in California," AERA Open. (2017) Card & Giuliano. "Can Tracking Raise the Test Scores of High-Ability Minority Students?" (2015)

Divot Loopping L pivotloop

Materials matter because they inform instruction

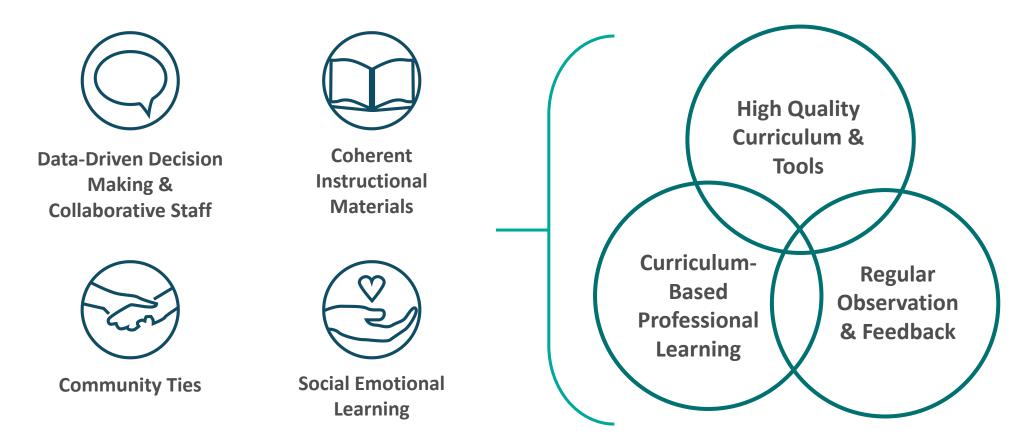

The evidence is clear that instructional interactions between students and teachers are framed by the instructional materials that are provided by their schools and districts.

And, that power is amplified within a coherent instructional system

Spotlight! Monterey Peninsula USD

MPUSD began to implement *Ready Classroom Mathematics* in the 2019-20 school year. MPUSD is committed to equitable instruction and continuous improvement.

Spotlight! Monterey Peninsula USD

MPUSD's Vision Statement for high-quality middle years mathematics instruction:

- Students will develop a positive math identity and achieve at grade level by the end of middle school, set up for math success in high school.
- Math educators will regularly engage students in authentic problem solving and mathematical discourse, relate math to students' funds of knowledge, encourage discourse, welcome productive mistakes, and foster joy in their classrooms.
- All adults will demonstrate the shared belief that all students are capable of mastering grade level content, will acknowledge that our beliefs and biases shape student outcomes, and will commit to continual learning in service of improved instruction.

High Quality Materials Implementation -Conditions for Success

©2021 Pivot Learning | pivotlearning.org

#1 Resource, sponsor, and manage HQIM implementation at the leadership level

- Key decision makers understand the importance of HQIM implementation and make it a **district priority**;
- Diverse district leaders **sponsor and manage** the work internally, as a team:
 - Curriculum and PL
 - Data/ Research
 - Communications
 - School site staff (or as advisory group)
- School Boards and District Leaders champion and resource multi-year, job-embedded implementation

17 —

#2 Resource and execute an intentional *launch*

- Build the foundation of the work that will support implementation over multiple years
- Effective launch of implementation includes:
 - 1. Forming the implementation team
 - 2. Conducting robust needs assessment
 - 3. Setting instructional vision, goals, and strategy
 - 4. Developing and launching plans for effective implementation
 - 5. Building systems for sustainability

Lessons from the field:

Lessons from MPUSD's launch - Strengths and Challenges

#3 Prioritize a strong Professional Learning strategy and planning

Curriculum implementation is a **multi-year process**. Provide professional learning *as soon as* materials are adopted and in an *ongoing* fashion:

- Engage site leaders, instructional coaches, and teachers should be engaged.
- Develop and share a clear plan for **trainings** and ongoing **job-embedded support**, tailored for each stakeholder group.
- Make your professional learning collaborative.

Trainings should include materials and assessment, pedagogy, equity in materials, among other topics

#4 Communicate effectively and engage across key stakeholders

The plan should focus on building up **the mindset**, **investment**, **and ownership** of key stakeholders

For a successful communications and engagement strategy and plan:

- Focus on the "why"
- Communicate early and frequently
- Regularly demonstrate district investment and ownership
- Provide **opportunities for feedback** for educators, communicating iterative changes.

Lessons from the field:

Lessons from MPUSD's launch - Planning for Equity and Impact

#5 Measure immediate and long-term impact across all levels of the system

To build and maintain a measurement and evaluation strategy:

- Focus on coherence and systems-building
- Select high quality measurement tools, including valid and reliable assessments.
- Organize the strategy into cycles of continuous improvement (including at the site- and district-level)

Tip! Create and execute a measurement and evaluation strategy that assesses and quantifies **impact** on *educator* learning and mindset, instructional practice, student learning and engagement.

#6 Plan for Sustainability

- **Prioritize sustainability** from the beginning
- The district and PL partner(s) should engage in work like training of trainers – that will **build internal capacity to ensure** sustainability of trainings and site support for educators.
- Build **all tools and processes** for sustainability including measurement tools, professional learning calendars, etc.
- Invest in district and site teams to manage ongoing continuous improvement.

Setting up an effective system of continuous improvement supports all elements of high quality implementation <u>Walkthroughs</u>

Cycle of Implementation

Our services are

Data Review & Planning

Use Collected Data to Identify Areas for Improvement

Implementation

Instructional Rounds

Offer Targeted Supports for Instructional Leaders Improvement

Lessons from the field:

Lessons from MPUSD's launch - Approach to sustaining multi-year implementation

HQIM implementation is difficult work...

- 1. Resource, sponsor, and manage HQIM implementation at the leadership level
- 2. Resource and execute an intentional launch
- 3. Prioritize a strong Professional Learning strategy and planning
- 4. Communicate effectively and engage across key stakeholders
- 5. Measure immediate and long-term impact across all levels of the system
- 6. Plan for Sustainability

But doing it well has an enormous impact for students

Increased test scores across all student groups

1

Increased student achievement for Black and Latinx students

2

Changes in teacher behavior, leading to an even greater impact on student outcomes

3

We can help.

- Equity-driven district coaching and project management
- School-level coaching and trainings for educators to deepen curriculum and pedagogy knowledge
- Support for the effective use of Curriculum Associates' materials
